

## Comment désactiver un éventuel transfert de messagerie pro vers perso :

- 1- Se connecter sur votre webmail convergence via ce lien <https://webmail.ac-grenoble.fr/>
- 2- Cliquer sur « Options » en bas à gauche
- 3- Ouvrir l'onglet « Transfert »
- 4- Décocher la coche « Activer le transfert automatique »

The screenshot shows the 'Convergence' webmail interface. On the left, the 'Options' menu is visible, with the 'Transfert' option highlighted by a red circle and a large red number '2'. Below the 'Options' menu, the 'Messages' section shows 84 messages. At the bottom left, the 'Options' menu is also highlighted with a red circle and a large red number '1'. On the right, the 'Transfert' settings page is displayed. It features a red heading 'Décocher ici' and a blue sub-heading 'Activer le transfert automatique'. Below this, there is a checkbox labeled 'Activer le transfert automatique' which is currently unchecked and circled in red. A text input field below contains the email address 'daky@neuf.fr'. Further down, there is a section titled 'Conserver une copie du message' with a checked checkbox.
